### DETAILED ACTION

Claims 1 – 17 have been examined.

Claims 1 – 17 have been amended.

### *Drawings*

1. New Figures 1 and 2 have been accepted.

### *Claim Rejections - 35 USC § 101*

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1 – 4, 10 - 17 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The current focus of the Patent Office in regard to statutory inventions under 35 U.S.C. § 101 for method claims and claims that recite a judicial exception (software) is that the claimed invention recite a practical application. Practical application can be provided by a physical transformation or a useful, concrete and tangible result. No physical transformation is recited and additionally, the final result of the claim is estimate, which is not a tangible result because result is not clearly claimed to be tangibly embodied on a computer readable medium. The following link on the World Wide Web is for the United States Patent And Trademark Office (USPTO) policy on 35 U.S.C. §101.

[http://www.uspto.gov/web/offices/pac/dapp/opla/preognotice/guidelines101\\_20051026.pdf](http://www.uspto.gov/web/offices/pac/dapp/opla/preognotice/guidelines101_20051026.pdf)

The following will provide information by each independent claim on how to overcome the rejection under 35 U.S.C. 101.

Art Unit: 2193

Claim 1 - Method – The method should be computer implemented. Currently, the specified software is the focus of the estimate not what is executing the invention. The invention as claimed could be performed by pencil and paper.

Claim 5 – Method – Passes 101 because the invention (method) is being executed on a computer.

Claim 10 – System – Although, the processing components make a determination the determination is not stored/written/updated/displayed in a computer readable medium. At the end of the claim the verb indicating could be replaced with an action word that results in the storing or displaying as mention above.

Claim 13 – Product - The final result in the end of the claim if stored/written/displayed etc., on a computer readable medium the rejection would be overcome.

***Allowable Subject Matter***

3. Claims 5 – 9 are allowed.
4. Applicant's Response of December 29, 2006 was well formulated and well written and is deemed persuasive. The response is the Reasons For Allowance.

***Examiner's Comment***

5. The Applicant should amend the independent claims under 35 U.S.C. 101 and submit the amendment After Final. Applicant also RightFax the Examiner prior to submitting (unsigned) for review if they wish. Examiner's RightFax number is 571 273-3723.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
